Curriculum Development & Quality Improvement Policy

Excellence

Principal: Tim Jackson  BTech (Hons), PGCE
Our Vision Statement

To inspire learners to recognise and achieve their full potential

Our Mission Statement

Excellence, Passion, Team Work, Integrity, Innovation,
Sustainability, Valuing Others and Supportiveness

SPARSHOLT COLLEGE HAMPSHIRE

The Curriculum Delivery & Quality Improvement Policy was approved by the Quality & Standards Committee under the authority of the Board of Governors. This combines and supersedes previous publications and is effective from July 2016.

Purpose

The purpose of this policy is to guide those who deliver, enable and support learning in ensuring that decisions and activities in support of excellence in Teaching, Learning and Assessment (TLA), and success for all, result in the continual and sustainable improvements in practice.

Contextual Statement

This policy is placed in the context of:

- The 2014 Professional Standards for Teachers and Trainers
- Sparsholt College’s Mission Statement and Values
- Sparsholt College’s Strategic Plan

It brings together previously disparate policy documents, relating to Learning, Teaching and Assessment; Quality; and Staff Professional Development and is supported by a, annually reviewed, strategy document which sets out the College’s plans to secure further improvements in TLA practices. It has links to Policy documents relating to Information and Learning Technology (ILT); Human Resources (including capability); Managing Learner Conduct and Performance; and the conceptual map of the learners’ journey, referenced to the ‘Learning and Skills Taxonomy of Issues’ (http://ccqi.org.uk/wp-content/uploads/2014/09/Learning-Skills-Taxonomy-A3.pdf)

Policy Statement

Sparsholt has a sustained commitment to:

1. Placing the learner at the centre of the entire journey from independent advice and guidance to progression to work and/or Further/Higher Education whilst providing support which extends equality of opportunity to all.

2. Planning, delivery, assurance and continual improvement of inclusive TLA that empowers, stretches and challenges every individual appropriately so they meet curriculum expectations and fulfil their individual potential through:

   - Clear, unambiguous and unbiased advice and guidance which utilises staff expertise to assess the skills, knowledge, aspirations and potential of each individual to ensure that
they are provided with a programme of study which best fulfils their current, and expressed future, needs.

- Effective assessment of learners’ initial abilities to support the setting of appropriate, but challenging, targets for achievement and to ensure that appropriate support is provided to ensure equality of opportunity in meeting these.

- Assessment **for** Learning that involves the frequent use of:
  - a variety of valid, reliable, sufficient, fair assessment methods generating formative, and summative, judgements of learners’ progress;
  - constructive feedback providing clear targets which, and effective guidance that, enables learners to improve knowledge, skills competence, and the professional skills necessary to support independent learning;
  - accurate and sufficient assessment records that inform learner targets, the planning of delivery, and the reporting of progress to colleagues, learners, and other stakeholders.

- Personalisation of TLA which draws upon learners’ skills, knowledge and prior experiences to provide a programme of instruction, coaching and support which ensures they progress effectively towards their personal goals.

- Facilitation of an interactive, participative, curriculum which involves learners in planning the pace, and content, of TLA so that they develop appropriate professional, independent, learning skills.

- Delivery of a broad Study Programme which prioritise the development of independent, professional, learners who (in addition to fulfilling curriculum goals) acquire:
  - sustainable personal, entrepreneurial, and employment-related skills which prepare them for future careers;
  - research and study skills which support progression, through FE/HE, to further study;
  - further improvements, including qualifications where appropriate, to Literacy, Numeracy, and Digital Literacy, skills

- Pastoral support for all learners which, delivered in a form appropriate to the needs/mode of study, ensures that learners can fulfil their potential by mitigating, as far as practicable, barriers to achievement through:
o Ensuring that all learners have access to pastoral staff who understand, and can respond effectively to, their specific needs within a timely period.

o Promoting engagement with specialist Student Support teams to provide additional technical, or emotional, support to mitigate more severe issues.

o Providing access to specialist Learning Support that enables learners to mitigate the potential impact of learning difficulties, or disabilities, upon their studies.

• Enabling frequent expression of the Learner Voice, through quantitative and qualitative analysis, followed by effective, timely, action.

3. Ensuring that Quality Assurance, and Quality Improvement, activity effectively identifies opportunities to further develop curriculum delivery through:

• Accurate, and timely, use of information from a range of sources to ensure that, where delivery does not meet expectations, prompt, and effective, action is taken to identify, mitigate, and remove barriers to progress.

• Empowering innovation, experimentation, and creativity by teachers, coaches, and instructors, to effectively utilise new methods of TLA, and ILT, to ensure that delivery motivates, inspires, and stimulates curiosity resulting in the improved effectiveness, and success, of learning.

• Delivery of a high quality, responsive, programme of Continuing Professional Development that is explicitly focussed upon identifying, and fulfilling, the needs of practitioners and, subsequently, ensuring that the positive impacts can be measured through rigorous follow-up activity.

• The sustainable management and creation of resources, including the learning environment, that enable practitioners to inspire learners, enhance effective integration of theory into practice, and reflect changing expectations of efficient, yet effective, curriculum delivery.

4. Maintaining a culture of professionalism, accountability, and responsibility amongst staff where a sustained committed to raising standards is:

• Providing encouragement and support for its employees to gain the skills and qualifications that will support their future employability and meet the needs of Sparsholt College.

• Raising its employees’ skills and competencies to improve college performance through investing in economically valuable training and development.
• Informed by experimentation, collaboration, sharing good practice and the meeting of identified requirements for further skills, knowledge and (where appropriate) qualifications.

• Characterised by a staff team who take responsibility for the development and assurance of their own TLA, specialist Subject knowledge and Contextual development.

5. Utilising a comprehensive performance management process, informed by diverse, real-time, evidence to ensure that:

• Performance reviews clearly contribute to the formulation of the annual programme of Continuing Professional Development.
• Improvements in practice can be quantified and, where appropriate, triangulated with the inputs from professional development.
• The progress of curriculum delivery (including support) staff through their continuing development, including the achievement of appropriate formal teaching qualifications and, where appropriate, higher degrees, reflects the expectations of their roles.

The College will publish an annual Curriculum Delivery & Quality Improvement Strategy document within which its approach to furthering these policy obligations will be detailed and, where appropriate, linked to the College’s Strategic Plan.
