## SECTION 6: Other information

The College aims to provide bursary support for learners experiencing the greatest financial hardship but also has a flexible approach to allocating funds where a learner can prove a need for support. Please see our policy on the College website.

Any students with a total household income of £35,000 can apply for funding. We may consider applications over this limit where there are extenuating circumstances which are causing a barrier to participation, i.e. redundancy, loss of earnings through ill health etc.

The funding the college receives is limited and not all applications will be successful. You will receive an email to confirm whether your application has been assessed as eligible and what to do next. It is possible that the college may not make an award or may not award the full amount requested. If your application is not eligible we will email you to advise. If we do not hold an email address we will write to you. Usually, this process takes around fourteen days, however, during busy periods this may take longer.

If you are aged 20 or over and applying for assistance with childcare costs you will need to complete a separate contract which will be posted to you if your application has been assessed as eligible.

As part of the application process you may be required to attend an informal meeting to discuss how the Discretionary Learner Support Fund/Bursary can best support your needs whilst you study with us. You may be asked for further evidence or information regarding your income or expenditure.

Unfortunately we cannot return or photocopy evidence, however our reprographics department may be able to provide photocopies for a small fee. Alternatively photocopying facilities are often available at local shops or libraries for a fee.
